

# Museum of the Earth Detectives

<p><b>A WHALE OF A TALE</b> Find the large whale skeleton. Why doesn't this whale have any teeth?</p>	<p><b>SILURIAN PERIOD</b> New York's state fossil lived during the Silurian Period. We have the largest one found in New York on the wall. What is this animal called?</p>
<p><b>DEVONIAN PERIOD</b> Go to Fossil Lab and search through the bins for a fossil. Draw a picture below of the fossil you found.</p>	<p><b>CARBONIFEROUS</b> Find the large horsetail trunk and touch it! Draw a picture of the horsetail trunk below.</p>
<p><b>DINO LAB</b> Make a dinosaur rubbing on the back of this sheet. Write the name of your dinosaur below.</p>	<p><b>JURASSIC PERIOD</b> Can you find the large dinosaur footprint? Is it bigger or smaller than your foot? How many toes does it have?</p>
<p><b>EVOLUTION</b> Lift the lids of the evolution boxes. Name three of the objects you saw in the boxes.</p>	<p><b>FAVORITE FOSSIL</b> There are thousands of fossils in the Museum. Which one is your favorite? Why do you like it?</p>
